eCOA

Deep Expertise, Faster Start-Up, Better Data

Each Participant Interaction is a Vital Data Point

Tryal eCOA makes data collection simple and keeps participants engaged. With decades of experience building smart, easy-to-use eClinical solutions, our eCOA combines all the essential tools to support today's global clinical trials—without unnecessary add-ons that complicate workflows.

Everything you need, nothing you don't, for faster, streamlined studies with dependable results.

Built by eCOA pioneers, Tryal seamlessly combines efficiency with data integrity and regulatory discipline.

A Smarter Way Forward

At Tryal, your success is our priority. From the first conversation to the final data set, we're committed to removing barriers and simplifying every step of the process.

More Reliable Source Data

Optimize your trials with smart scheduling and real-time data validation. Our advanced scheduling module keeps patients on track and ensures visits run smoothly. At the same time, real-time data validation catches errors upfront, so you get clean, reliable results faster and reduce time spent correcting mistakes.

Trusted Support for Global Trials

Partner with a team that delivers on its promises. From eCOA licensing and consulting to translations, localizations, device provisioning, and native language call support worldwide, our experienced team is here to help. With clear communication at every step, you can rely on us to navigate challenges and ensure your trials succeed—wherever they take place.

Comprehensive eCOA Data Capture

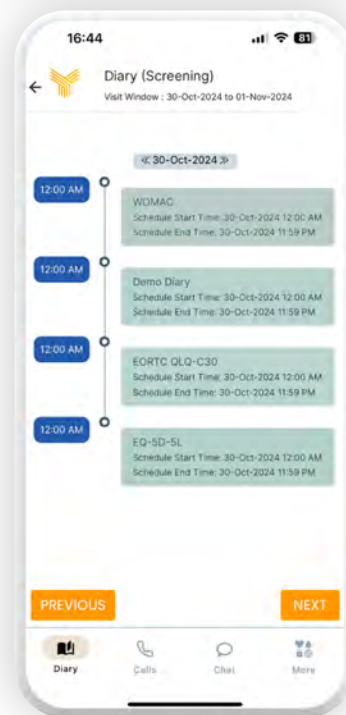

Collect critical data, either online or offline, with support for ePRO (patient-reported), ClinRO (clinician-reported), ObsRO (observer-reported), and PerfRO (performance-based outcomes) across iOS, Android, and web platforms. Our open API ensures you can get any eCOA data where you need it, when you need it. Flexible design adapts seamlessly to the unique requirements of any clinical study.

Participant-First Engagement

Keep participants engaged with intuitive mobile apps, televisit capability, and customizable reminders, alerts and alarms. With six direct communication options, you can improve compliance, reduce dropouts, and enhance data quality.

Rapid Study Setup

Accelerate timelines with our library of pre-built, validated instruments, visual configuration tools and rapid prototyping. Tryal's flexible eCOA solution and experienced service team can adapt to your trial's requirements—reducing setup time while ensuring clinical precision.

Experience the Difference

Contact us today to learn how Tryal solutions can help your team accelerate studies with confidence.
